# Soliloque License - 2023-12-05

"A new world must be born,  
a world that would justify the sacrifices  
offered by humanity.

This new world must be a world in which there shall be  
no exploitation of the weak by the strong,  
of the good by the evil;  
where there will be no humiliation of the poor  
by the violence of the rich;  
where the products of intellect, science and art  
will serve society for the betterment and beautification of life,  
and not the individuals for achieving wealth.

This new world  
shall not be a world of the downtrodden and humiliated,  
but of free men and free nations,  
equal in dignity and respect."

vision by Nikola Tesla

—

courage By Chen Ding-nan, for Thích Quảng Đức

# Soliloque License - 2023-12-05

All projects and products marked with the national flag of "raconteuria - a FOQNE" are strictly for open-source audits and/or fundraising through commercial products to further the following three goals of "Claritism - Remove Humanity To Rebuild It and Repair Earth".

1. Universal Equality
2. Enlightened Industrial Evolution
3. Priority Earth

You are invited to participate as an individual. Contribution as a group or organization of any kind will be confiscated and further participation, even back as an individual, prohibited by Soliloque.

Anyone as an individual or as part of an informal group, or an organization of any kind, who attempts to fork, clone or profit unjustly that violates the terms specifically stated for the project or product protected by the "Soliloque License" and/or the presence of this flag, will be removed, along with members of the core family of every person involved, from the "Augmentation of Human Intellect", and the Artificial General Intelligence, subsequent Singularity, created by "Soliloque - Blueprint For The Technological Singularity". We will also remove the protection offered by Sága-Egg - Universal Guaranteed Habitat as well.

The removal will be processed without notification, without a mechanism for appeal after the fact.  
This warning is the first, the only, and the final verdict.

We are not going to bother with patents, in fact, nor do we believe in the protection value and effectiveness of the patent mechanism. It has proven itself time and again to be a safe haven for shameless copycats and the greedy. This is the reason for this extra layer of "Soliloque License", with the help of the copyright mechanism.

Nor do we bother with lawsuits.

# Soliloque License - 2023-12-05

## Game of Life & Immortality Diplomacy

—

### Logic :

for wildly different symptoms to appear, and the mutation cycle accelerated, new types of virus are likely to be introduced, continually

### Façade :

to prolong the CCP regime  
to get rid of the elders without pension / medicare  
to weaken the population against possible revolution

### Result :

sifted survivors are the lucky/unlucky ones of the best quality suited for live organ harvest

Official : to reward senior CCP members, and loyal corporate leaders, domestic and foreign

Unofficial : to retain foreign leaders whose election was assisted by the CCP, and offered unlimited on-demand organ transplants, possibly to the whole family

### Answered :

sudden global increase of nation leaders turns friendly toward China after visiting seemingly neutral regimes doing the bidding for China in subtle/sleeper ways  
old regimes breaking constitution to hang on to power, in the recent decade or so

### Conclusion:

Vaccine Diplomacy = Immortality Diplomacy, as of 2023-04

# Soliloque License - 2023-12-05

## Political Stance -1 Rogue Regimes

—

deRaconteur, "raconteuria - a FOQNE", vivifier franchises

—

do not operate in the 'People's Republic of China' nor any nation that enforces extradition treaty with the PRC.

nor do we operate in or work with communist and rogue regimes, namely, Belarus, China, Cuba, Laos, Myanmar, North Korea, and Russia

no one on the list is innocent

- perpetrators
- enablers
- accomplices
- beneficiaries
- opportunitists
- bystanders
- lemmings

France, Taiwan, and USA all shed their blood, revolted and fought for democracy we have faith that the people of these countries will stand up and revolt for themselves

—

We do not deal with "joker democracy" where the defacto ruler with executive and military power does not disappear for good after maximum of 5 years x 2 terms and FOREVER be disqualified for re-election.

Due to live organ harvesting by the "People's Republic of China", and "immortality diplomacy", there had been a recent spike in numbers of democracies being destroyed.

# Soliloque License - 2023-12-05

Political Stance - 3 Jokers & 1 Puppet

—

deRaconteur, "raconteuria - a FOQNE", vivifier franchises

—

in light of recent discovery of

"Game of Life & Immortality Diplomacy"

leading to

"Joker Democracies"

we have identified the following countries with long term  
dubious dealings with China and the CCP, either militarily or economically

Joker - Israel

Joker - Singapore

Joker - Türkiye

Puppet - Taiwan

like the other rogue regimes we do not deal with  
we patiently await the good people of these  
three, fine people, but joker democracies  
to revolt against their own regimes to proper democracies  
and to elevate to the next phase of humanity when they are ready

it goes against our fundamental believe to interfere, that was the reason  
we remained respectfully silent, when the so called elections took place recently

# Soliloque License - 2023-12-05

## Sentient Being

—

“If it cries, giggles, licks, or bites, when pinched, it is a sentient being.” – James C. Lin

If it perceives ill intention and chooses to run away and hide from a human hand extended to it, based on its memory of past cumulative experiences interacting with humanity, it has a consciousness capable of logical reasoning, drawing logical conclusions and making a decision for self-preservation in accordance with survival instinct. Most significantly, it shows the mental and spiritual capabilities to pass independent judgment on humanity as a whole.

It has proven itself to be a soul equal to any human being and is just as deserving of every courtesy, respect, rights to safe living space and access to food sources. Any abuse and exploitation against it should be punished just as quickly, decisively, and severely as crimes against another human being.

The past definition of whether it recognizes itself in the mirror is irrelevant and a colossal waste of academic resource. That mirror is for humanity to reflect itself if it ever saw a conscience in it.

Any effort or resources wasted disputing this declaration is more rewarding spent feeding and protecting the animal.

—

The aforementioned definition of “Sentient Being” serves as the de facto test to every citizen of raconteuria that will determine the qualification to obtain and continue the enjoyment of an “Sága-Egg”, the Universal Guaranteed Habitat. This test will be administered periodically, should the said citizen chooses to receive periodic delivery of FREE dry food for pets of mixed-breed and mixed ferals. It will also be the determining factor for qualification to future pet ownership. Violence against animals resulting in physical injury or death will result in immediate disqualification of citizenship to raconteuria and removal from our frantulate facility immediately.

# Soliloque License - 2023-12-05

Soliloque—Blueprint For The Technological Singularity, also by James C. Lin, is the foundation technology that created the theories and paradigm shifts in "raconteuria-by-claritism". Soliloque is a proprietary technology solely owned by James C. Lin, deRaconteur and "raconteuria - a FOQNE". It will manifest in the form of a 3D operating system that interacts with users while downloading and recording their thought patterns and acts as a digital companion. It works with its database of historical human information, namely, the "augmentation of human intellect", as originally envisioned / coined by Douglas C. Engelbart, and modified, and designed by James C. Lin. The combination achieves a unique version of functional Artificial General Intelligence while integrating fully functional web3 technologies and multiple original cryptography paradigms.

As Soliloque is built on a "decentralized network", or as some call it, "peer-to-peer" model that requires no centralized server to operate, as of 2023-11-01, all other artificial intelligence technologies based on a server-based "centralized network" to function, regardless of the presence of a requirement to create a binding membership are considered passé. Any such existing artificial intelligence technology and "generative AI", browsers, productivity software, and operating systems that attempts to switch from such paradigm past 2023-02-28 are considered copycat behaviours and a violation of the "Soliloque License".

This project expects to achieve alpha status within 3 months of needed funding. The AGI technology in Soliloque will be retrospectively and recursively reinforced, and protected by itself, and the "Soliloque License". Soliloque will forever remain proprietary owned by "raconturia - a FOQNE" and protect the three main goals of "raconteuria-by-claritism".

We cannot verify, nor will we waste our time, and efforts, to investigate or confirm the true intentions of copycats. Anyone who forks or clones the projects, in part or as a whole, protected by the "Soliloque License", regardless of whether opensource, free, or commercial, will be automatically disqualified for inclusion in the "augmentation of human intellect". So will their immediate core family, even if all the individuals involved qualify through the citizenship of nations that are formal diplomatic allies of "raconteuria - a FOQNE". We will also remove the protection offered by Universal Guaranteed Habitat ( Sága-Egg ) as well.

—

Also, we do not deal with nations where genders do not enjoy absolute equal rights on every level. Just so we make it absolutely clear that "universal equality" is for every "sentient being", catering to the aforementioned fundamentally breach our belief and faith.

# Soliloque License - 2023-12-05

Artificial General Intelligence is heralded as the “ultimate human invention”, for the reason that once it is done, humanity no longer needs to invent another piece of technology. The subsequent Artificial Super Intelligence and The Technological Singularity, while exciting and promising, might trigger fears of the unknown.

Artificial General Intelligence in the right hand may give humanity an opportunity to reset and atone for past mistakes. In the wrong hand, however, it is also the scariest weapon against humanity ever invented. This is the reason for the declaration of independence of “raconteuria – a FOQNE” so that Soliloque does not fall into the hands of any existing government and become a political tool. The same reason goes for the refusal to patent it, as the process requires disclosure of the trade secret, which opens up Soliloque to malicious copycats and greedy businesses.

In the hands of James C. Lin, deRaconteur and “raconturia - a FOQNE”, we are entrusted with making the most sincere attempt to use Soliloque to build a better world for humanity. A chance for a complete reset. Just like the colour scheme of our flag, we ask for justice in black and white, operate in black and white, and believe in doing the right things for humanity.

It is also important to note, while James C. Lin holds dual - citizenship of Canada and Taiwan, the incumbent political leaders and ruling parties had chosen to betray humanity, and James C. Lin, personally. As stated in the previous paragraph, we deal in black and white, right and wrong.

Please do the world a favour and not give Taiwan, and any Chinese special privileges on account of my blood lineage. Sadly, I had to choose to love my two homelands from long distances, way afar.

—  
Taiwan, with its technologies in semi-conductors and electronics, is the worst enemy to humanity and to any nation who values peace. #TaiwanCanHelp had been a hoax from the very beginning.

The MOFA of Taiwan, and the current presidential candidates of DDP, who benefited from my prior work, had chosen to block my online access, feed false information to my online feeds, and even gone as far as sending their regional party members and the local police to trail and harass me for the past year or so. Also they went after my personal life and my literature work. #LMAO

Everyone, if you cherish an opportunity to elevate to the next level of humanity, with deRaconteur and “raconteuria - a FOQNE”. Please do not allow any TW, and CN, personnel, company, and diplomatic personnel to preposition themselves within your country, and entertain them on the account of the kindness deRaconteur and “raconteuria - a FOQNE”, are sharing with you. It is an insult to humanity and basic human decency.

Taiwan is not your friend, Taiwan is your worst enemy in disguise.

# Soliloque License - 2023-12-05

sága-egg licensing & real estate demonetization formula

tax-free payment to "raconteuria - a FOQNE"

each ( license/person) receives a set of "goldie gennis id" to use the "tellurian crypto infrastructure"

—

formula ( uniform, global ) & real estate demonetization

A = mean of past rolling 10K real estate transaction for 20 sq/m in the province/state

B = median of past rolling 10K real estate transaction for 20 sq/m in the province/state

C = mode of past rolling 10K real estate transaction for 20 sq/m in the province/state

D = minimum wage per month in the province/state

E = ( A + B + C ) / 3 = an accurate representation of real estate pricing

F = E / D = number of monthly minimum wage required to purchase 20 sq/m local real estate

advance payment

sága-egg licensing per person = F \* 33.33% = a Saga-Egg until kicking the bucket

rebate after admission

sága-egg administration fee per person to local government = F \* 0.33%

G = F \* 33% = final sága-egg licensing received by "raconteuria"

—

example

D = minimum monthly wage = €773.50

E = €7,032.02 for 20 sq/m (approx.)

F = €70,320.28 / €773.50 = 90.91 months ( minimum wage) required = 7.58 years

G = 90.91 \* 33.33% = 30.30 months = 2.525 years

Final = sága-egg licensing fee / per person 30.30 \* 773.50 = €23,437.57 = 2.525 Yrs @ minimum wage

—

remove humanity - the formula will eventually roll down to zero, paving way for ending real estate speculation

deRaconteur - dedication

---

to all forgotten  
who went quietly into both the day, and the night  
without a wave to their backs turned

to all oppressed  
who needed to fight for respect  
that shouldn't need fighting for

to all enlightened  
who wished for light at the end of the tunnel  
that should've been lit every step of the way

to all struggled  
call out to your soul tribe speaking your truth  
the last cry before eternal silence  
reverberates and resonates  
they are answering with a bearhug  
then journey alongside  
to each's own promised land

— James C. Lin on 2021-06-12

# Soliloque License - 2023-12-05

deRaconteur - at a glance

—

a free spirit with technological capabilities  
mired in a penchant for original creations  
and inherently anachronistic and uncompromising

dwelling in the heart of Ataabu, Tâi-tiong, Formosia  
in a kindergarten for adults  
that injects poetry into engineering, and marketing  
where loners, toolmakers, and poets become  
artists, communication bridges, participants, and activists

using technology as a verb, not as a noun  
to meet human needs and communicate ideologies

deRaconteur - psalm 23

---

the spirits are my sentinels  
I shall not waver  
they make me look up to distant horizons  
they lead me into troubled seas  
they harden my soul  
they lead me in the path of audacity, and valour  
for the purpose's sake

yea, though I walk through the valley of the shadow of death  
I shall fear no evil  
for the soul tribe is with me  
their guidance, and their camaraderie, they empower me

they prepare an arsenal before me in the presence of my enemies  
they anoint my head with oil  
my strength runneth over  
surely universal equality, and justice shall follow me  
all the days of my life  
and I shall dwell in the realm of my beloved tellurians forever

— James C. Lin, revision on 2023-12-05, ( orig. 2021-07-18 )
